DETAILED ACTION

This is the first action relating to serial application number 10/604,378, filed 07-15-2003.

Claims 1-18 are currently pending.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The examiner has accepted the drawing filed with this examination.

Specification

3. The disclosure is objected to because of the following informalities: in paragraph [0025] the "four-point link mechanism" is depicted by reference numerals 36a and 26a. It suggested changing reference numeral 26a to 36. Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by CH 337740). CH (337740) discloses a bicycle derailleur comprising a base member (36/5); a link mechanism (9/26) couples to the base member; chain guide coupled to the link mechanism; wherein the base member comprises a first portion (36) mounted to the

frame of the bicycle; a second portion (5) mounted to the link mechanism such that the first portion and the second portion are structured to move or fold relative to each other.

In claim 2, note the first and second portion are structured to fold relative to each other.

In claim 3, note the base member includes first and second base members (36/5).

In claim 4, note the item (35) allow the base members to be flexible to each other.

In claims 5 and 6, note the item 35 is a pivot shaft, which is also a hinge.

Allowable Subject Matter

6. Claims 7-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ando (5,397,273), Hatten (3,259,398) and DE (2507213) disclose a rear derailleur.
